

\_\_ Women  
\_Travel  
\_Music  
About Me  
Contact

The navigation names Home, Categories, About Me, Contact : is "Parents" & Life Style, Fashio, Travel, Music : is "Sub child of parents" & Men, Womens is "Sub child of a child"

### Add Megamenu :

Now If you want to add a megamenu you just need to added underscore for sub and the shortcode **number\_of\_posts/style/sorted\_by**. The shortcode should be like this :

**Sorted by Recent :**  
\_6/megamenu/recent

**Sorted by Random :**  
\_6/megamenu/random

**Sorted by Discussed :**  
\_6/megamenu/discussed

**Sorted by Category :**  
\_6/megamenu/travel

**i** Info : Use this **Builder** can help you create this shortcodes easily!

Copy/paste this code below and replace it with your generated Access Token and User ID :

```
userId: User_ID,  
accessToken: 'User_Token',
```

Now your question is where I can get this Widget ID? this is the instructions how create a valid ID to use!

- Go to **This Website** and click on Generate Access Token button and sign in as normal, and give them the access to generate your Access Token, (Don't worry is a safe method!).
- After that the Access Token Code will Generated copy all the code and replace it with User\_Token for example my accessToken is :  
**'3977869306.1677ed0.aaafe4e456db49cc910dfc26b4e03474'**
- Now about the User Id just copy the first numbers of accessToken until the next point, Use this as your ID instead! for example my User ID is **3977869306**, just replace it with User\_ID
- Save the widget, and well done!

## Get Your Instagram Access Token

In order to display your Instagram photos on your own website, you are required to provide an Instagram Access Token. You can do this by clicking the generator button below. After clicking, you'll be prompted by Instagram to authorize Pixel Union to access your Instagram photos, and you may need to enter your Instagram login credentials.

Generate Access Token

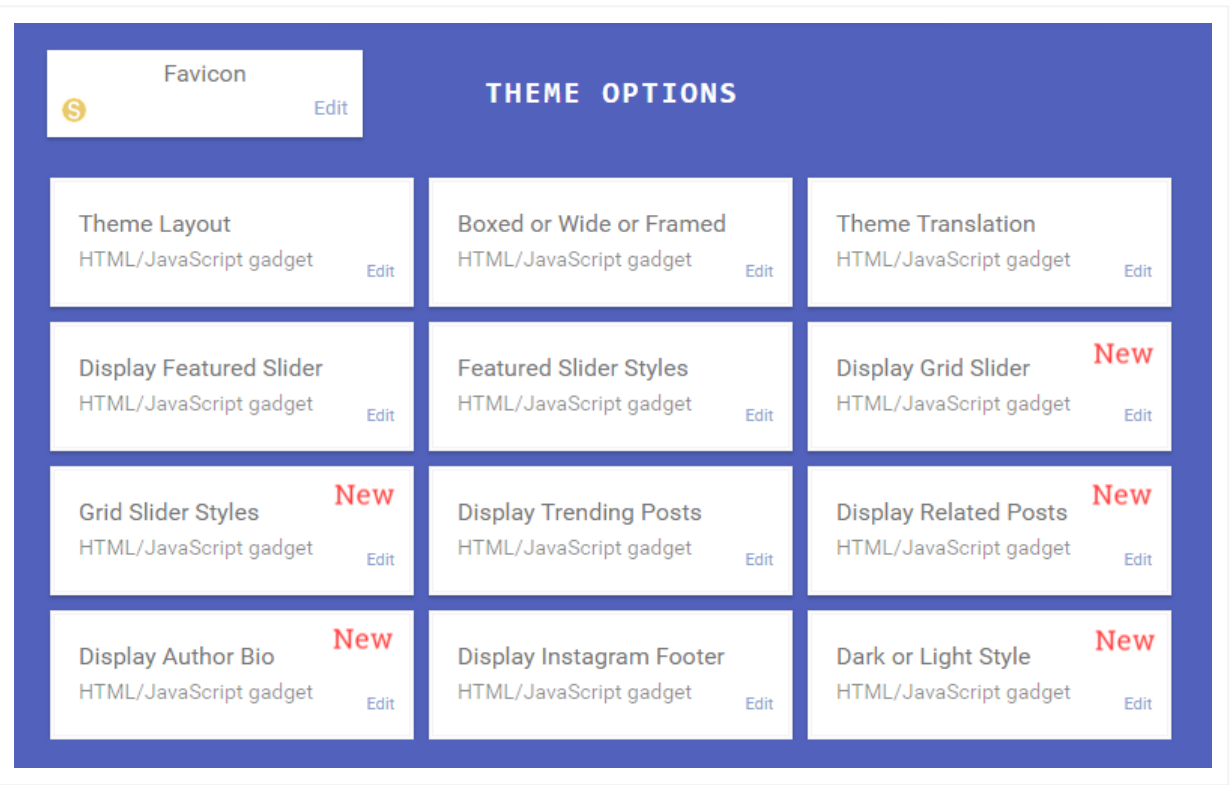

You'll be brought right back here and, if all went well, your Instagram Access Token will be ready for you. Copy and paste this access token into the correct field. Remember to keep your access token private and never paste it in a location where others might access it.

The Final Result is should be like this :

```
userId: 3977869306,  
accessToken: '3977869306.1677ed0.aaafe4e456db49cc910dfc26b4e03474',
```

## Theme Options

Persona come with a wonderful and easy Theme Options to customize your template like you want! is very easy to customize just form Page Layout, and to know how only follow this instructions below.

⌘ Note : Be careful while writing these tags because they are sensitive to letters Uppercase or Lowercase

🔖 Important : Do not copy these tags with quotes for ex: "Leftsidebar", the correct is to type Leftsidebar without quotes!

## Theme Layout
